

JOIN YOUR PEST CONTROL INDUSTRY COLLEAGUES FOR:

WPCA SPRING TRAINING

February 14-15, 2017
Kalahari Water Park and Resort
Wisconsin Dells
1305 Kalahari Drive, Wisconsin Dells, WI 53965

Bring your family to the Kalahari for a spectacular winter retreat at one of America's finest destinations. Rooms and family suites are available at deep WPCA discounts. WPCA rooms are available until January 13th, or while the supply lasts.

Register today, don't delay!

There are many fine places to stay in Wisconsin Dells other than the Kalahari. For other lodging options, contact the Wisconsin Dells Visitor and Convention Bureau at 1-800-223-3557 or visit www.wisdells.com and click on "Stay."

ABOUT THIS YEAR'S SPEAKERS

For complete speaker biographies, please visit www.wisconsinpest.com

Denis Collins, PhD, Edgewood College Denis is Full Professor of Management at the Edgewood College School of Business in Madison. He holds a PhD in Business Administration from the University of Pittsburgh. Denis has published six books, numerous articles and has conducted hundreds of business ethics workshops, talks, and consulting projects. This is his 3rd time presenting at the WPCA conference.

Jim Dotson, Midwest Pest Management Consulting Jim brings to Spring Training better than 39 years of pest management industry experience. He recently retired from Bayer Environmental Science where he served in positions that ranged from research and development, to product and sales management. Currently he is the sole proprietor of Midwest Pest Management Consulting. Jim received a BS degree in biology from Missouri State University, and an MS in entomology from the University of Missouri.

Art Fonk, WDATCP Art is one of 14 Environmental Enforcement Specialists with the Wisconsin Department of Agriculture, Trade, and Consumer Protection. His territory is in the South East corner of the state. He is responsible for enforcing Federal and State laws and rules regarding the use, sale, manufacture and storage of pesticides, fertilizers, and animal feeds. Art earned his bachelor degree from the UW-Madison College of Agriculture and Life Sciences in Ag Economics.

Gail Getty MSc, BCE, QAL, Domus Institute Gail, whose 20-year career as an urban entomologist at the University of California, Berkeley continues today as the Founder and Principal of Domus Institute. She is a 30-year veteran in the industry and is a nationally recognized expert and speaker on pests as they relate to the public and structures, especially in multi-unit housing. She has appeared on NPR, as well as the Today Show, MSNBC with Brian Williams and consulted to the film industry. Gail received her BS in Entomology and MS in Wood Science & Technology from the University of California, Berkeley.

Neal Haskell, PhD, BCE, St. Joseph's College Neal was a Professor of Forensic Science and Biology at Saint Joseph's College in Rensselaer, IN, and now Professor Emeritus in retirement. However, he continues as a private international forensic entomology consultant to hundreds of law enforcement agencies across North America and in Europe. He holds adjunct appointments at the University of Wisconsin and the University of Nebraska. Due to the current interest in crime fighting by the general public (CSI and others), Neal has been featured on over 40 television programs including "The New Detectives", Discovery Channel, "Secrets of Forensic Science", The Learning Channel, "How Things Work", A&E, and "Forensic Files" on Court TV and recent filming for National Geographic and the History Channel "Dead Reckoning".

P.J. Liesch, UW Madison Insect Diagnostic Lab P.J. holds degrees in biological sciences (BS, UW-Parkside) and entomology (MS, UW-Madison), and has been managing the UW-Madison Insect Diagnostic Lab since March, 2014. P.J. has been involved with insect-related research, outreach and Extension since 2005. He is a regular speaker for the Master Gardener program, the WI-First Detector Network, the WI-Pesticide Applicator Training program, and UW Farm and Industry Short Course programs. P.J. is an avid insect collector and has an inordinate fondness for beetles.

Jason Meyers, PhD, BASF Corporation Jason is a Market Development Specialist for BASF Corporation's Agricultural Products and Specialty Products Division. Prior to his current position, Jason served as a graduate researcher and teaching assistant at the Texas A & M Department of Entomology in its Urban and Structural Entomology Lab. He received an MS degree in entomology from the University of Arkansas and his PhD in entomology from Texas A & M University at College Station, Texas.

Erin Monteagudo, MS, BCE, Univar Erin studied entomology at the University of Florida, earning her bachelor's degree under Dr. Phil Koehler and her master's degree under Dr. Nan-Yao Su. She began her career in the pest management industry as a regional entomologist for Western Pest Services in Florida and Atlanta, GA, later continuing this position in New Jersey and New York. In 2008, she became a field supervisor for Bell Environmental Services with major accounts in New York City. During this time, she earned her board certification from the Entomological Society of America. Erin joined Univar in March 2013 as the Technical Content and Training Specialist in Austin, Texas.

Tom Mueller, Insects Limited, Inc. Tom is a sales and marketing executive with Insects Limited, Inc., of Columbus, Ohio. Insects Limited, Inc. is the leader in pheromone technology, and researches, tests, develops, manufactures and distributes quality pheromones and trapping systems for stored product insects. The company specializes in a unique niche of pest control that has developed into a business that provides products and services that are mainstream in protecting stored food, grain, museum collections, tobacco, and fiber worldwide. Tom received a BS degree from Ball State University.

Mike Murray, WDATCP Mike is the Pesticide Program Manager with the Wisconsin Department of Agriculture, Trade and Consumer Protection in Madison, WI. He manages programs for the certification and licensing of pesticide applicators and commercial businesses, and licensing of restricted-use pesticide dealers. Mike provides information and clarifications on pesticide use policies and rules to the regulated community, the public and other agencies.

Susan Paskewitz, PhD, Department of Entomology, UW-Madison Susan is the Chair of the Department of Entomology and a professor and scientist at UW-Madison. She specializes in medical and veterinary entomology, with a focus on disease transmitted by ticks and mosquitoes. Her current research projects include development and tests of integrated management strategies for control of Lyme disease and other tick-borne pathogens, the development of novel repellents for mosquitoes, and the surveillance of mosquitoes and ticks in collaboration with the CDC and the Wisconsin State Department of Health Services.
